Coral Garden Reef Snorkeling

The reefs are the best areas for snorkeling. The slope can have interesting features like cliffs, terraces and caves. As the water gets deeper, the differences in the coral and other types of marine life are clearly visible. Snorkeling gets to be more adventurous when you can see smaller fish and much larger animals that live in deep water but come close to the reefs to feed. The Coral Garden Reef with narrow reef flats with lots of channels and wide lagoons are the best for snorkeling. “water and drinks provided”

Hanifaru Bay Trip (Manta & Whale Shark)

Hanifaru Bay is located in the Baa Atoll Hanifaru in the Maldives. For several years now, Hanifaru Bay Maldives has become known as one of the prime dive spots in the world. diving Hanifaru Bay is so special because of the abundance of Hanifaru Bay manta rays. The manta rays are attracted to Hanifaru Maldives because this area is home to incredible amounts of plankton. There can often be more than 200 manta rays, and they gather in a frenzy of feeding action, swirling around in the water and gobbling up the delicious plankton. “water and drinks provided”

Bodu Beru (Traditional Music)

Literally meaning 'Big Drums' in Dhivehi, the bodu beru is a reminder of the Maldives Multiethnic influences with strong roots from east Africa. The traditional music has survived modern influences , and is widely being played across Maldives in local islands by experienced drummers. It encourages your mood to take your shoes off and dance to the tunes and likewise importantly remind you that a big part of the Maldives are also welcoming you.
